General description

SEMINAR 4 - Warsaw - Poland

9 February 2017

(DISSEMINATION ACTIVITIES)

Multiplier events in participating countries

The Erasmus Plus project is a joint initiative of national quality assurance agencies, rector's conferences and higher education institutions (HEIs) of four countries: Poland (coordinator), Portugal, Bulgaria, Slovenia. Partners of the project: Polska Komisja Akredytacyjna, Konferencja Rektorów Akademickich Szkół Polskich, Agência de Avaliação e Acreditação do Ensino Superior, Conselho Reitores das Universidades Portuguesas, Universidade do Minho, Nacionalna agencija RS za kakovost v visokem solstvu, Univerza v Novi Gorici, Univerza v Ljubljani, Nacionalna Agencija za Ocenjavanje i Akreditacija. The overall goal of this project is to illustrate approaches and options that can be considered as good principles and a source of inspiration to guide other higher education institutions in the design and development of their own IQA systems.

EIQAS is concerned with internal quality assurance (IQA) in higher education and has two objectives: to increase the capacity of HEIs in the participating countries to develop internal quality assurance systems by enhancing their awareness and understanding of Part 1 of the Standards and Guidelines for Quality Assurance in European Higher Education Area (2015 version) and identifying, developing and disseminating good innovative practice in internal quality assurance (1); and to increase the capacity of the participating QAAs in external quality assurance by comparing their methodologies for the assessment of internal quality assurance systems and exchanging and developing good practice in IQA assessment at a broader context (2).

Each participating country is expected to organize a multiplier event/disseminating event at national level, by the end of the Project. The Dissemination Event in Poland will be held in Warsaw. The dissemination event will be devoted to the presentation and promotion of the main project outputs (the relevant country report and the cross-country report summarising findings from the online survey on IQA and the ESG; the Guide to IQA and the Students' Guide to Part 1 of the ESG).

The main part of the seminar will include practical sessions on: 1) the interpretation of Part 1 of the ESG, including the Guide to IQA; 2) Good practice in IQA; and 3) Students involvement and experience.

The Seminar will use the information materials prepared and published on the EIQAS project website. Please, use this website www.eiqas.com for additional information.
